

## Relocation of Luton Rugby Club

Press Release

14 February 2022

### Luton Rugby Football Club to hold second round of public consultation about grounds relocation

Luton Rugby Club has today outlined its plans for a second round of public consultation about its proposed relocation from the Club's current grounds at Newlands Road to new grounds off Sundon Road, Lower Sundon. The Club plans to develop the new grounds into a modern rugby facility with multiple pitches and a clubhouse, and to redevelop the old home ground for residential housing.

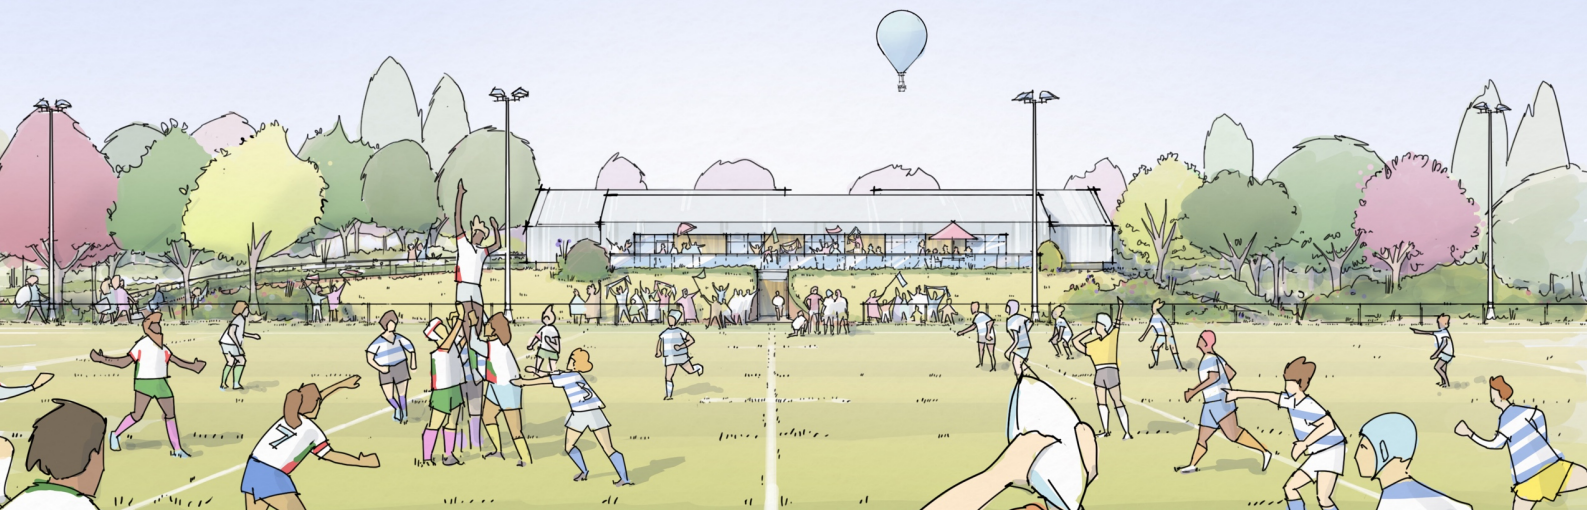

Public and statutory consultation for the Club's original planning application began in 2019 and, following a review of the feedback collected during this initial consultation, the Club decided to withdraw its original planning application to allow more time to consider potential revisions to its proposals.

Over the last two years, the Club has made significant changes to its plans as a result of feedback from the members of the public, councillors and stakeholders. These changes have addressed many of the issues raised during the original consultation process and have helped to significantly enhance the Club's overall proposals.

Now, in advance of the Club submitting its revised planning application for the new grounds in spring 2022, members of the public are being invited to attend a public exhibition.

Details of the public exhibitions, which will take place at Sundon Village Hall, are as follows:

- 12 noon – 7 pm on Friday 25 February 2022
- 9am – 1pm on Saturday 26<sup>th</sup> February 2022

There is no need to pre-register to attend the exhibition. If you are unable to attend, you can still find out more about the Club's plans and share your views on the proposals for inclusion in the Club's consultation report via:
